

4B3.3 RANGE: 44-66 kVA

QUIETLY POWERFUL. VERY ADAPTABLE.

WHAT MAKES 4B3.3 SPECIAL

The powerful, compact Cummins 4B3.3 combines amazing low noise performance with high efficiency – emissions are so low it achieves StillA standards. With more than 18h* runtime, autonomy is high too. Cummins 4B3.3. Adaptable power, built in Europe to meet your needs.

*75% PRP

ALL THE ADVANTAGES

SMALLER AND LIGHTER

Improved power to weight ratio with excellent efficiency.

SOUND ATTENUATED

Quiet in operation with just 92dBA sound power level and fully CE compliant. That means a lower noise environment for users once installed.

OPTIMIZED SUBSYSTEMS

Very simple to operate and use.

EASY TO MAINTAIN

You can service the 4B3.3 easily and get it back in service faster, reducing downtime to a minimum.

CUMMINS RELIABILITY

Performance you can depend on even at high altitudes and extreme temperatures. Extended coverage is available on the comprehensive worldwide warranty.

ASSEMBLED IN EUROPE

High quality Cummins engineering, improved lead times, built to last.

ADAPTABLE POWER WHEREVER YOU NEED IT

Industrial | Construction* | Agriculture and farming | Hotels | Healthcare and hospitals | Residential and light commercial | Public infrastructure
